Agriculture, Ecosystems and Environment, 39 (1992) 289–290
Elsevier Science Publishers B.V., Amsterdam

Author Index

Aggarwal, G.C. (Ludhiana, India), Pimentel, D. and Giampietro, M. (Rome, Italy)
Weed benefits and costs in rice and wheat production in India 235
Algur, Ö.F. and Kadioğlu, A. (Erzurum, Turkey)
The effects of vinasse on the growth, biomass and primary productivity in pea (*Pisum sativum*) and sunflower (*Helianthus annuus*) 139
Altieri, M.A. (Albany, CA, USA)
Sustainable agricultural development in Latin America: Exploring the possibilities 1
Artois, M., *see* Delattre, P. et al.
Baudry, J., *see* Delattre, P. et al.
Bradbury, N.J., *see* Whitmore, A.P. et al.
Colbourn, P. (Aberystwyth, UK)
Denitrification and N_2O production in pasture soil: the influence of nitrogen supply and moisture 267
Damange, J.-P., *see* Delattre, P. et al.
Dazhong, W., Yingxin, T. and Yungzhen, H. (Shenyang, People's Republic of China)
Sustainable and productive agricultural developement in China 55
Delattre, P., Giraudoux, P., Damange, J.-P., Quéré, J.-P., (Montpellier, France), Baudry, J. (Lieury, France), Musard, P. (Beaune, France), Toussaint, M. (Niort, France), Truchetet, D. (Le Havre, France), Stahl, P. (Le Perray en Yvelines, France), Lazarine Poule, M. and Artois, M. (Maizéville, France)
Land use patterns and types of common vole (*Microtus arvalis*) population kinetics 153
Edwards, J.H., *see* Wood, C.W. and Edwards, J.H.
Emebiri, L.C. and Obiefuna, J.C. (Owerri, Nigeria)
Effects of leaf removal and intercropping on the incidence and severity of black Sigatoka disease at the establishment phase of plantains 213
Giampietro, M., *see* Aggarwal, G.C. et al.
Giraudoux, P., *see* Delattre, P. et al.
Hill, S.B. and MacRae, R.J. (Ste-Anne de Bellevue, Que., Canada)
Organic farming in Canada 71
Hons, F.M., *see* Powell, J.M. and Hons, F.M.
Johnson, P.A., *see* Whitmore, A.P. et al.
Kadioğlu, A., *see* Algur, O.F. and Kadioğlu, A.
Lazarine Poule, M., *see* Delattre, P. et al.
Liebman, M. (Orono, ME, USA)
Research and extension efforts for improving agricultural sustainability in the north central and northeastern United States 101
Macdonald, I.A.W. (Rondebosch, South Africa) and Wissel, C. (Marburg, Germany)
Determining optimal clearing treatments for the alien invasive shrub *Acacia saligna* in the southwestern cape, South Africa 169
MacRae, R.J., *see* Hill, S.B. and MacRae, R.J.
Marco, E. and Orus, M.I. (Madrid, Spain)
Long term effects of trichlorfon on the cyanobacterium *Anabaena* PCC 7119 257
Mostaghimi, S., Younos, T.M. and Tim, U.S. (Blacksburg, VA, USA)
Crop residue effects on nitrogen yield in water and sediment runoff from two tillage systems 187

Musard, P., *see* Delattre, P. et al.
Obiefuna, J.C., *see* Emebiri, L.C. and Obiefuna, J.C.
Orus, M.I., *see* Marco, E. and Orus, M.I.
Otegbeye, G.O. (Zaria, Nigeria)
Genotypic stability in *Eucalyptus camaldulensis* for some growth and morphological characteristics 245
Pimentel, D., *see* Aggarwal, G.C. et al.
Powell, J.M. (Niamey, Niger) and Hons, F.M. (College Station, TX, USA)
Fertilizer nitrogen and stover removal effects on sorghum yields and nutrient uptake and partitioning 197
Quéré, J.-P., *see* Delattre, P. et al.
Shogren, J.F., *see* Wang, Q. and Shogren, J.F.
Sriskandarajah, N. and Wright, D. (Richmond, N.S.W., Australia)
The quest for sustainable agriculture: the current position in Australia 85
Stahl, P., *see* Delattre, P. et al.
Tim, U.S., *see* Mostaghimi, S. et al.
Toussaint, M., *see* Delattre, P. et al.
Truchetet, D., *see* Delattre, P. et al.
Wang, Q. and Shogren, J.F. (Ames, IA, USA)
Characteristics of the crop-paulownia system in China 145
Whitmore, A.P., Bradbury, N.J. and Johnson, P.A. (Boston, UK)
Potential contribution of ploughed grassland to nitrate leaching 221
Wissel, C., *see* Macdonald, I.A.W. and Wissel, C.
Wood, C.W. and Edwards, J.H. (Auburn, AL, USA)
Agroecosystem management effects on soil carbon and nitrogen 123
Wright, D., *see* Sriskandarajah, N. and Wright, D.
Yingxin, T., *see* Dazhong, W. et al.
Youno, T.M., *see* Mostaghimi, S. et al.
Yungzhen, H., *see* Dazhong, W. et al.
